

The Tuatara Enclosure

The Tuataras in this enclosure come from Steven's Island in Cook Strait, between the North and South Island.

The enclosure is able to mirror the environmental conditions found on Steven's Island. This ensures that the health and well being of the Tuataras remains at an excellent standard.

List below five of the technological features used in the Tuatara Enclosure.

1. _____
2. _____
3. _____
4. _____
5. _____

The Oceanarium

Using the pictures around the Oceanarium, identify and name the fish below.
Try and find these fish in the Oceanarium Tank.
